Quote: "I am delighted to render my service on the Workplace Safety and Health (WSH) Council. With manufacturing being an integral part of Singapore's economy and employing a substantial number of the workforce, it is necessary to constantly promote and practise workplace's safety and health at all levels. Ensuring safety at all times pays well for both Small and Medium Enterprises (SMEs) and Multi-National Corporations (MNCs) in Singapore, thanks to the WSH Council's proven track records of advocating safety and health at work. As the Chairman of the WSHC (Manufacturing) Committee, it is my desire to partner and work together with both employers and employees to ensure that we ourselves together with our colleagues and staff can return home safely each day to our families after work."
