

Mr Daniel T'ng
Co-Chairman, WSH Council (Facilities Management)
Committee
Founder, Starklit Consultancy

Mr Daniel T'ng has more than 35 years of experience in the property and facilities management industry in Singapore and the Region. He has extensive experience in managing strata-titled developments, lease management, facilities management, project consultancy and general management as well as business development in the facilities management industry. He joined City Developments Limited in 2012 to head the Property and Facilities Management Division as Executive Vice President and has retired as the Executive Advisor, Property Development Division in April 2021. He is a qualified Associate Adult Educator specialised in coaching and training real estate practitioners in the areas of Facilities Management and Strata Development Management. Following his retirement, Mr T'ng founded M/s Starklit Consultancy and partnered with REDAS and NTUC LHUB in providing strata management training for developers and facility management training for security professionals respectively.

He is also the co-chairman of the Workplace Safety & Health (FM) Committee, and Member of WSH Council and Member of WSH Finance Committee. Mr T'ng is appointed by Building Construction Authority as a Resource Person (Advisor) to the Integrated Planning & Design – Design for Maintainability Taskforce.

Prior to these appointments, Mr T'ng had held several senior management positions, some of which include, Director (Property Management)/Singtel, Director (Corporate Services)/Bright Beam Pte Ltd, Senior Vice President/Marina Property Management Pte Ltd, and Chief Executive Officer/One Marina Property Pte Ltd.

In the strata Management (Management Corporations) arena, Mr T'ng had held the position of Chairman of Nouvel 18, Council Member of St Regis Residences, Council Member of Cliveden@Grange, Council Member of New Futura, and Council Member of Gramercy Residences.

Quote: “Starklit Consultancy, is committed to uplifting the facility and strata management industry standards through delivering quality training courses towards upskilling and reskilling facility and property professionals. In the course of our training we advocate workplace safety and health awareness in the facility management practices”
