

**TIP 5:**

During repair and maintenance, use **lockout devices** to prevent machine from starting accidentally.

**TIP 6:**

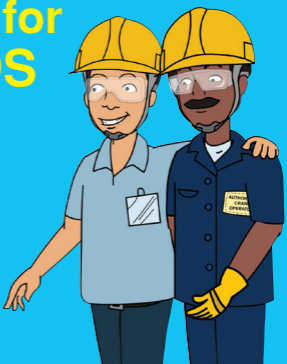

Use **safety blocks** for machines under repair.

Every year, **over 100 workers lose their limbs** at the workplace. All work incidents can be prevented. Make an effort to keep yourself safe at work.

# 6 Handy Tips for SAFE HANDS

Protect your hands and fingers when you are working with machines.

**TIP 1:**  
**DO NOT** operate any  
machine if you are  
sick.

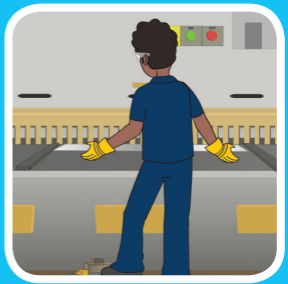

Inform your supervisor.

**TIP 2:**  
At work, wear  
appropriate **hand  
gloves** when handling  
metal pieces.

**TIP 3:**  
Before starting work,  
make sure that  
**machine guards are  
in place.**

**TIP 4:**  
**DO NOT** operate  
machines with  
**damaged guards.**

Report to your  
supervisor.
