

# LOOK. THINK. DO.

Look out for danger. Think of how you can protect yourself. Do your work safely.

## 6 Basic Workplace Safety and Health (WSH) Rules for Woodworking

Accidents involving machinery can lead to serious injuries. **Every year, more than 100 workers suffer from amputations while working with machines.** Do your risk assessment before starting work.

**Report to your supervisor if you feel unwell.**

**Make sure all moving parts are guarded.**

**Use push block to push the workpiece through the saw.**

**Lock-out and tag-out before repair and maintenance.**

**Return all tools and keep areas free of sawdust.**

**Use the right personal protective equipment.**
