Join the Webinar on Overview to Total Workplace Safety and Health Organised by ASMI and the WSH Council

The relationship between our work environment, safety, and health is closely inter-related. This is especially so in the face of the current COVID-19 pandemic situation, where any compromise in either facets could severely affect companies. Therefore, it is important to take a more holistic and integrated approach in managing workplace safety and health.

Co-organised by the Association of Singapore Marine Industries (ASMI) and the Workplace Safety and Health (WSH) Council, the webinar, titled "Overview to Total Workplace Safety and Health", focuses on how the marine industries can adopt a more holistic approach to improve the safety and health at the workplace. Participants can look forward to gleaning valuable insights from industries leaders and professional healthcare experts who will be sharing good health practices, including challenges faced by the marine industries in the areas of mental well-being and ergonomics.

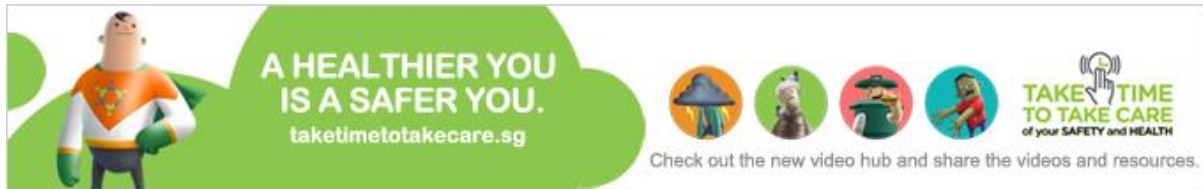

The speakers will also share insights on how companies can adopt best WSH practices to manage the safety and health challenges, as well as address participants' questions and concerns through a Q&A session.

Date: 17 December 2020 (Thursday)
Time: 3:00pm - 4:30pm
Venue: Zoom
