

LOOK. THINK. DO.

Look out for danger. Think of how you can protect yourself. Do your work safely.

6 Basic Workplace Safety and Health (WSH) Rules for Working with Machines

Moving machine parts can cause death or serious injuries such as crushed limbs and amputations. **Every year, 2 workers die and 1,000 workers are injured while working with machines.** Do your risk assessment before starting work.

Report to your supervisor if you feel unwell.

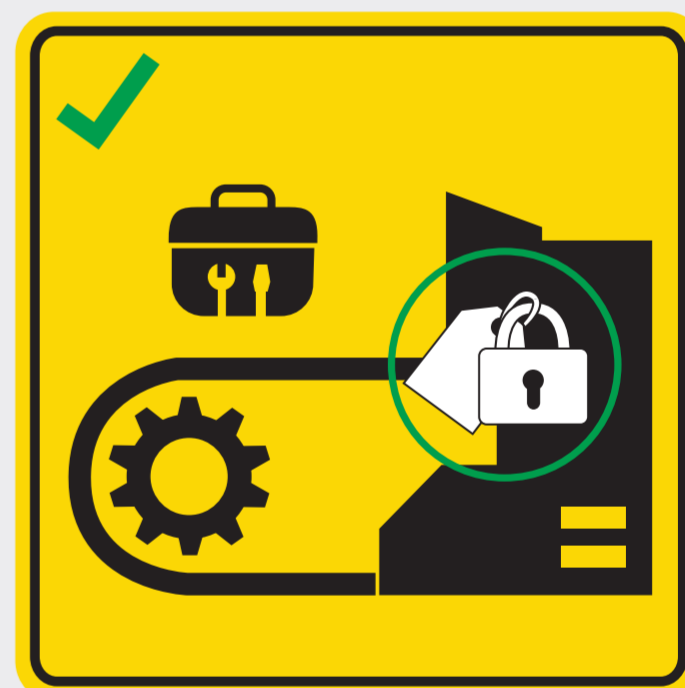

Make sure all moving parts are guarded.

Stop the machine if it is not working properly.

Lock-out and tag-out before repair and maintenance.

Be trained and competent before operating any machine.

Use the right personal protective equipment.

Learn more from the WSH Guidelines on Safe Use of Machinery at www.wshc.sg.
