

LOOK. THINK. DO.

Look out for danger. Think of how you can protect yourself. Do your work safely.

6 Basic Workplace Safety and Health (WSH) Rules for Safe Forklift Operation

Forklifts are useful when heavy loads need to be handled and transported easily and quickly. Mishandling or inappropriate use of forklifts, however, can result in property damage, serious injuries or even fatalities. Do your part at the workplace by operating forklifts properly and safely.

Report to your supervisor if you feel unwell.

Operate a forklift only if you are trained and authorised.

Do not overload forklift.

Never use a forklift to carry or transport a person.

Do not speed.

Check blind spots before reversing.
