

SET YOUR **CARE TIME TODAY!**

LET'S REALLY TAKE TIME TO TAKE CARE.

Identify Hazards (Unsafe Conditions)

Take time to assess your work surroundings and look out for unsafe conditions. Ensure that you are not using defective or wrong tools, equipment, or machinery. Check if there are missing guards and barriers. And look out for poor housekeeping.

Scan the QR code
to add Care Time to
your phone's calendar.

Make time to care for your safety and health in the workplace by doing these actions during Care Time.

other actions you can do **#WSHCareTime**

Identify Hazards (Unsafe Behaviours)

Take time to assess your work surroundings and look out for unsafe behaviours. Ensure there is no unauthorised use of a machine or vehicle. Check that your personal protective equipment is worn, and in the correct manner. And avoid taking shortcuts by skipping steps in safe work procedures.

Report Hazards

Once you spot a hazard, report it to your supervisor, WSH officer, or someone who can make the right workplace changes.
