

WATCH YOUR STEP

Every year, there are more than 3,000 workers who are injured due to Slips, Trips and Falls across all industries. Do your part at the workplace by heeding these safety actions.

Safety Actions to prevent **SLIPS, TRIPS AND FALLS** in the Construction industry

Watch out for uneven floors and steps while working.

Perform regular housekeeping. Clear away unused materials at the worksite.

Be aware of obstacles like protrusions and cables.

Make sure your work area is well lit.

Avoid multitasking while walking.

Set up Care Time in your phone's calendar to remind yourself to be safe. Visit www.wshc.sg/preventstf for more safety actions you can take.
