WSH BULLETIN

SPOTLIGHT

The WSH Council Urges All to Stay Healthy and Safe During This Festive Season

Companies and workers should remain vigilant and continue to prioritise workplace safety and health. Conduct risk assessments before starting work, review WSH practices and control measures, and check and maintain equipment and machinery.

LATEST HAPPENINGS

Vehicular Safety Technologies (VSTs)							
Common VSTs improve driver's situational awareness and monitor signs of fatigue or distraction							
On-road solutions				On-site solutions			
 Advanced Driver Assistance System (ADAS)	 Driver Status Monitoring System (DSMS)	 Driver Behaviour Monitoring System (DBMS)	 Blind Spot Detection	 360 Degrees Camera	 Proximity Sensors	 Access Control	 Video Analytics
<ul style="list-style-type: none"> Forward collision warning Lane departure warning Headway monitoring warning Pedestrian detection 	Alerts driver of: <ul style="list-style-type: none"> Fatigue Distraction Smoking Phone usage 	Tracks: <ul style="list-style-type: none"> Speeding Harsh Acceleration Harsh Cornering Excessive Braking 	Detects vehicles and pedestrians in blind spots when turning or changing lanes	Provides real-time view of area surrounding vehicle	Alerts driver when a person or an object is too close to vehicle	Authenticates worker before operation of equipment	<ul style="list-style-type: none"> Geofencing for exclusion zones Detects proximity and calculates trajectory Traffic management

Improving Vehicular Safety With Technology

Vehicular incidents continue to be one of the top causes of workplace injuries, and many incidents are contributed by drivers' poor situational awareness, fatigue or distraction. SMEs from all industries can apply for the Productivity Solutions Grant to implement vehicular safety technologies.
